Part IV Supplemental Information. Provide the information required in Part I, line 2; Part III, column (b); and any other additional information.

Part I, Line 2 - Procedures for Monitoring Use of Grants Funds in U.S.

The Foundation requests grant recipients to measure their success in attaining program goals. The purpose of asking for an evaluation plan in the application phase is to 1) encourage potential grantees to incorporate evaluation into their planning process from the inception of the program, and 2) to enable outcomes measurement during and at the end of the grant period. The evaluation plan also sets the report criteria for the six-month and annual progress reports. The evaluation plan/report components include outcomes statement (who or what is expected to change as a result of the grant), measurable goals for the project, activities to achieve goals, information needed, methods to be used to gather the information and who will be responsible for gathering it. The six-month and annual progress reports accurately

Part I, Line 2 - Procedures for Monitoring Use of Grants Funds in U.S. (continued)

describe the progress towards the goals listed on the evaluation plan submitted with the original application and include an explanation of any variances from the goals or expected progress.
