Go to EHF’s login screen and enter your username and password then click next.

Once logged in, this screen will emerge. Select “SMS” and enter your mobile number. There is no need to add the dashes. Then click “Send SMS”.

You will receive a text message with the Multi Factor Authentication token.
Enter the token code in the MFA screen and click "Log In".

Success, you have set up the MFA. Each time you login you will automatically be sent your MFA token by text.
